8. Motion - ***62* - AWARE** that on diverse dates during the month of May 2025, in effort to fulfill the provisions of Article 43 of the Constitution of Kenya 2010 that provides every person has a right of highest attainable standards of health, which include rights of health care service, including reproductive health care and further to that a person shall not be denied right to emergency medical services, the County Assembly of Vihiga passed two health bills that being Vihiga County Facilities Improvement Financing Act 2025 which provided for public health facilities financing, management and administration, while Vihiga Teaching and Referral Act 2025 provided for a legal framework for the establishment Vihiga Teaching and Referral hospital.

COGNISANT of the fact that the two Acts (Vihiga County Facilities Improvement Financing Act 2025 and the Vihiga Teaching and Referral hospital) were aimed at curing the challenges of lack of drugs and other HPTS (Heath Products and Technologists) at the referral hospital and other medical facilities, over reliance on locum staff at the referral despite the County having employed adequate permanent medical staff, lack of structural leadership in the entire health department and at the medical facilities, logistical, infrastructural, human resource, financial and operational deficiencies that had brought the health sector to its knees causing untold suffering and pain to the residents of Vihiga.

CONSCIOUS THAT the desired aims of the House in the passage of the bills haven't been met and the health sector remains in a deplorable manner, facilities have been run down, they lack basic drugs, their subordinate workers remain unpaid for the past many months, fraudulent expenditure of SHA monies and donor funds continue, while the referral hospital exists in name and not in practice as itself refers patients referred to it to other hospitals not because of health complications to patients but due to malfunctioning of machines, lack of drugs, fraudulent expenditure a fact sighted by the Auditor-General in her latest report, lack of proper structured leadership issues exuberated by the non-operationalization of the approved bills, lack of regulations, non-existence of oversight committees as contemplated in the Facilities Improvement Financing Act 2025, fraudulent expenditure of scarce funds deposited in facilities accounts be they donor funds or SHA, acts facilitated by the repeal of the Vihiga Facilities improvement fund Act 2020, which was repealed by approval of the Vihiga County facilities Improvement Financing Bill, 2025, as provided for in section 35.

DEEPLY CONCERNED that service delivery has been weakened, patient's confidence is at an all-time low, the public hospitals are now referred to as death beds, residents of Vihiga suffer and continue to suffer in pain due to poor or no service in the public facilities.

TAKING NOTE OF THE FACT that The County Assembly is duly mandated pursuant to Article 185 of the Constitution of Kenya as read with section 8 and 9 of the County Government Act 2012 to undertake the necessary oversight over health services which is one of the devolved functions.

NOW THEREFORE, I wish to give Notice of Motion that this House resolves that;

1. Within twenty one days(21) upon approval of this motion;
